- identifying allergies and preventing contact with the allergenic substance
- having ongoing discussions with parents/carers to develop allergy action plans for managing individual children's known allergies and intolerances.
- ensuring that all staff know the difference between allergies and intolerances.
- identifying food ingredients that contain recognised allergens and displaying this information for parents
- identifying and promoting health through taking necessary steps to prevent the spread of infection and taking appropriate action when children are ill
- ensuring that food is prepared for children in a way that prevents choking
- ensuring that children are sat safely on a suitable low sized chair when eating.
